TA-IP-082 / Ingrid / INDEPENDENT IP ASSET

Distributed Compute Fabric

Coordinate remote computing work and review continuity across your distributed operations.

Product overview

A distributed-compute product foundation for buyer-operated services.

Potential acquirers

- Compute service developers
- Enterprise infrastructure vendors
- Private cloud teams

Documented functions

- Coordinate consent-based remote workers
- Review workload delivery
- Retain session continuity
- Track worker responses
- Prepare transferable service foundations

Available output types

Worker session records / Delivery evidence / Service foundation material

Software assurance & infrastructure

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 229,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Distributed-compute reference software. Production fleet operation, provider accounts and cloud-service commitments are excluded.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-082 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-16. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	229,000	257,694
Negotiation reference - low	182,000	204,805
Negotiation reference - high	286,500	322,398
Recreation cost estimate	1,250,000	1,406,625
Marketability cost scenario	1,753,125	1,972,792
Monetisation cost scenario	2,156,250	2,426,428
Risk-adjusted strategic reference	2,346,996	2,641,075
Weighted economic reference	1,915,824	2,155,877

Milestone-conditioned reference

EUR 2,462,914; model change EUR 547,090. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The previous whole-project cost anchor remains a legacy seller assumption. The new implemented increment has a separate role/work-package reproduction budget; the base is counted once.

Source references
