Evidence-Grounded Multi-Expert Reasoning System

Compare multiple perspectives on a complex question and inspect the evidence behind their conclusions.

Product overview

An evidence-grounded reasoning product for specialist review and measurable comparisons.

Potential acquirers

- AI product companies
- Enterprise reasoning teams
- Research organisations

Documented functions

- Route problems to specialist review
- Ground claims in supplied evidence
- Expose contradictions
- Run bounded checks
- Retain reproducible evaluation records

Available output types

Evidence-linked conclusions / Contradiction reports / Benchmark dossiers

Evidence & investigation software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 500,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-053 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	500,000	562,650
Negotiation reference - low	400,000	450,120
Negotiation reference - high	625,000	703,313
Recreation cost estimate	1,800,000	2,025,540
Marketability cost scenario	2,277,000	2,562,308
Monetisation cost scenario	2,794,500	3,144,651
Risk-adjusted strategic reference	2,297,348	2,585,206
Weighted economic reference	2,268,372	2,552,599

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Source references

WIPO - Intellectual Property Valuation Basics — The cost method

Knab - Software developer freelance rates in 2026

Upwork - Software developer hiring costs

European Central Bank - Euro reference exchange rate - US dollar

External sources inform the method, contractor-rate context and currency only. Project-specific prices and model factors remain seller assumptions. The marketability, monetisation and strategic references share a cost anchor; their weighted blend is not an independent appraisal.

USD display: EUR 1 = USD 1.1253; ECB 2026-10-16. EUR is authoritative.
