Faunometric

Classify recorded sounds for your bioacoustic studies and compare results across repeatable evaluations.

Product overview

A bioacoustic research product for classifying observed sounds and governing model qualification.

Potential acquirers

- Ecological research groups
- Bioacoustic software vendors
- Environmental monitoring teams

Documented functions

- Classify recorded sound
- Compare candidate results
- Preserve evaluation evidence
- Review release eligibility
- Apply documented runtime decision rules

Available output types

Classification records / Study reports / Qualification decisions

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 275,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Bioacoustic research and evaluation software. Performance for a particular species, recording environment or field use needs its own evidence.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-006 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	275,000	309,458
Negotiation reference - low	220,000	247,566
Negotiation reference - high	345,000	388,229
Recreation cost estimate	1,200,000	1,350,360
Marketability cost scenario	918,000	1,033,025
Monetisation cost scenario	1,188,000	1,336,856
Risk-adjusted strategic reference	547,727	616,357
Weighted economic reference	912,904	1,027,291

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
