Industrial Predictive Maintenance & RUL Platform

Study equipment condition and compare remaining-life estimates to support your maintenance research.

Product overview

An industrial prediction asset for condition modelling and remaining-life studies.

Potential acquirers

- Maintenance software vendors
- Industrial research groups
- Equipment-data teams

Documented functions

- Organise machine telemetry
- Review data quality
- Compare condition models
- Estimate remaining service life
- Retain validation evidence

Available output types

Prediction records / Quality reports / Benchmark dossiers

Operations, reliability & digital twins

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 360,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Condition and remaining-life research software. Equipment-specific predictive performance requires representative data and acceptance.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-059 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	360,000	405,108
Negotiation reference - low	290,000	326,337
Negotiation reference - high	450,000	506,385
Recreation cost estimate	1,000,000	1,125,300
Marketability cost scenario	1,575,000	1,772,348
Monetisation cost scenario	2,200,000	2,475,660
Risk-adjusted strategic reference	2,537,266	2,855,185
Weighted economic reference	1,893,043	2,130,241

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
