Maastricht Zero-Hour Simulator

Explore the developing Maastricht driving-simulation project and its foundations for interactive vehicle scenarios.

Product overview

A Maastricht driving-simulation foundation for buyer-led completion.

Potential acquirers

- Driving simulation developers
- Vehicle research teams
- Interactive experience studios

Documented functions

- Prepare a city simulation project
- Configure vehicle and input foundations
- Record telemetry
- Review modelled damage components
- Retain session and validation records

Available output types

Simulation foundations / Telemetry records / Implementation documentation

Aerospace & mobility engineering

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 120,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Scope and transfer review required

- A driving-simulation foundation. Completion, target-device performance and packaging are separately scoped.
- The delivery perimeter and transfer requirements need further review before terms can be finalised.

Offered first-party perimeter

- The specifically agreed first-party software or research work product
- Associated first-party product documentation and retained evaluation material
- The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-089 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	120,000	135,036
Negotiation reference - low	95,000	106,904
Negotiation reference - high	150,000	168,795
Recreation cost estimate	650,000	731,445
Marketability cost scenario	571,838	643,489
Monetisation cost scenario	559,406	629,500
Risk-adjusted strategic reference	479,458	539,534
Weighted economic reference	556,559	626,296

Milestone-conditioned reference

EUR 683,792; model change EUR 127,233. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
