Multimodal Evidence Adaptive Systems Platform

Bring different forms of observation together and compare their contribution to your research.

Product overview

A multimodal research prototype for coordinated observation and attributable experiments.

Potential acquirers

- Sensor research groups
- Scientific software vendors
- Human-state research teams

Documented functions

- Organise multiple observation streams
- Review quality and missing data
- Align recorded sessions
- Study adaptive experiments
- Retain research provenance

Available output types

Observation sessions / Study reports / Replay records

Visual & spatial software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 115,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• A multimodal research prototype. Human-state conclusions and physical sensor performance require domain-specific qualification.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-056 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	115,000	129,410
Negotiation reference - low	90,000	101,277
Negotiation reference - high	145,000	163,169
Recreation cost estimate	650,000	731,445
Marketability cost scenario	667,144	750,737
Monetisation cost scenario	756,844	851,677
Risk-adjusted strategic reference	559,367	629,456
Weighted economic reference	643,076	723,653

Milestone-conditioned reference

EUR 798,461; model change EUR 155,385. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
