QUBO Structural Analysis and Optimization Platform

Compare optimisation approaches and assess candidate solutions within a clearly defined problem scope.

Product overview

An optimisation research prototype for structured problem analysis and comparative studies.

Potential acquirers

- Optimisation research teams
- Planning software vendors
- Scientific software developers

Documented functions

- Characterise supplied problems
- Review connectivity and scale
- Compare bounded candidate solutions
- Measure study resource use
- Retain qualification evidence

Available output types

Problem diagnostics / Solution comparisons / Scaling reports

Physics, mathematics & optimisation

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 90,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Optimisation research software. Performance must be evaluated for the intended problem class and operating conditions.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-075 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	90,000	101,277
Negotiation reference - low	70,000	78,771
Negotiation reference - high	115,000	129,410
Recreation cost estimate	650,000	731,445
Marketability cost scenario	422,663	475,623
Monetisation cost scenario	372,938	419,667
Risk-adjusted strategic reference	209,570	235,829
Weighted economic reference	394,970	444,460

Milestone-conditioned reference

EUR 465,240; model change EUR 70,270. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
