Universal Sensor Fusion & Digital Twin Intelligence Platform

Bring operational observations into a digital-twin view and review changes with their uncertainties.

Product overview

A domain-neutral twin software foundation for operational observation and supervised review.

Potential acquirers

- Digital-twin vendors
- Industrial software teams
- Systems integrators

Documented functions

- Organise operational observations
- Review estimated state and uncertainty
- Supervise bounded workflows
- Recover retained sessions
- Replay evaluation histories

Available output types

Twin state records / Operational reports / Replay evidence

Operations, reliability & digital twins

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 240,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-025 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	240,000	270,072
Negotiation reference - low	194,000	218,308
Negotiation reference - high	301,500	339,278
Recreation cost estimate	797,000	896,864
Marketability cost scenario	962,377	1,082,963
Monetisation cost scenario	1,183,545	1,331,843
Risk-adjusted strategic reference	970,977	1,092,640
Weighted economic reference	968,276	1,089,601

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Retained EUR 780,000 base plus EUR 17,000 low-effort implementation increment = EUR 797,000. Seller asking reference EUR 235,000 to EUR 240,000, retaining the earlier asking/cost proportion. Market value remains NOT_ESTABLISHED. Estimated hours are not logged time or expenditure.
