Software Asset Engineering Platform

Inspect a software project, review its recorded evidence and limitations, and prepare a documented package for an acquisition review.

Product overview

A software-inspection prototype for documented asset review and handover preparation.

Potential acquirers

- Developer-tool vendors
- IP transaction teams
- Engineering organisations

Documented functions

- Inspect supplied software work products
- Retain review snapshots
- Record supported findings
- Prepare repair-note proposals
- Create review and handover dossiers

Available output types

Inspection reports / Repair-note proposals / Asset review packages

Software assurance & infrastructure

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 75,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-098 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-11. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	75,000	84,398
Negotiation reference - low	60,000	67,518
Negotiation reference - high	93,750	105,497
Recreation cost estimate	250,000	281,325
Marketability cost scenario	210,375	236,735
Monetisation cost scenario	194,062	218,378
Risk-adjusted strategic reference	104,311	117,381
Weighted economic reference	179,896	202,437

Milestone-conditioned reference

EUR 215,435; model change EUR 35,539. Evidence a reproducible operational engine release, deployment-specific security and an agreed engine-asset delivery acceptance scope. Deferred input execution and SaaS remain outside this milestone.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Disclosed base/increment assumptions reconcile to the retained recreation anchor. Effort remains an analyst estimate for its original scope.
