TLS Virtual

Explore rotating-machine behaviour in simulation and review diagnostic demonstrations and reports.

Product overview

A rotating-machine simulation and diagnostic demonstrator with an explorable twin view.

Potential acquirers

- Industrial software vendors
- Maintenance research teams
- Technical training providers

Documented functions

- Simulate healthy and degraded machines
- Explore fault scenarios
- Review explanatory diagnostics
- Retain machine-state histories
- Produce traceable reports

Available output types

Diagnostic demonstrations / Twin snapshots / Scenario reports

Operations, reliability & digital twins

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 195,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-010 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	195,000	219,434
Negotiation reference - low	155,000	174,422
Negotiation reference - high	245,000	275,699
Recreation cost estimate	650,000	731,445
Marketability cost scenario	784,875	883,220
Monetisation cost scenario	965,250	1,086,196
Risk-adjusted strategic reference	791,889	891,113
Weighted economic reference	789,686	888,634

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
