Universal Capability Synthesis Engine (UCSE)

Find and compare software capabilities for your requirements, then assess how suitable components could work together.

Product overview

A software-capability discovery and qualification prototype for evidence-led choices.

Potential acquirers

- Developer-tool vendors
- Enterprise architecture teams
- Technology research groups

Documented functions

- Describe required capabilities
- Discover candidate software
- Review admission evidence
- Compare benchmark records
- Retain composition provenance

Available output types

Capability inventories / Candidate comparisons / Qualification decisions

AI & decision software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 150,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-092 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	150,000	168,795
Negotiation reference - low	120,000	135,036
Negotiation reference - high	190,000	213,807
Recreation cost estimate	800,000	900,240
Marketability cost scenario	860,200	967,983
Monetisation cost scenario	931,500	1,048,217
Risk-adjusted strategic reference	721,236	811,607
Weighted economic reference	810,773	912,363

Milestone-conditioned reference

EUR 1,008,165; model change EUR 197,392. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
