Verifiable Execution Control Platform

Review and authorise software operations, and follow the evidence needed for a controlled execution workflow.

Product overview

An execution-control asset for authorised actions and attributable operational transitions.

Potential acquirers

- Industrial control vendors
- Enterprise automation teams
- Edge-system integrators

Documented functions

- Review bounded execution requests
- Control action authorisation
- Record state transitions
- Retain execution histories
- Prepare software acceptance evidence

Available output types

Execution records / Authorisation decisions / Acceptance dossiers

Software assurance & infrastructure

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 450,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-018 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-17. Existing EUR amounts retained; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	450,000	506,385
Negotiation reference - low	360,000	405,108
Negotiation reference - high	565,000	635,795
Recreation cost estimate	1,250,000	1,406,625
Marketability cost scenario	2,062,500	2,320,931
Monetisation cost scenario	2,875,000	3,235,238
Risk-adjusted strategic reference	3,322,610	3,738,933
Weighted economic reference	2,462,914	2,771,517

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
