Maastricht Digital Twin

Explore Maastricht-based scenarios and compare mobility simulations in a local research workbench.

Product overview

A Maastricht geospatial workbench for repeatable urban mobility studies.

Potential acquirers

- Urban simulation developers
- Planning research groups
- Geospatial software vendors

Documented functions

- Import permitted geospatial records
- Explore a local city workbench
- Run mobility scenarios
- Retain scenario histories
- Replay study evidence

Available output types

Scenario maps / Mobility histories / Study packages

Operations, reliability & digital twins

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 200,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: 0.1.0

• A geospatial research workbench. City data and other third-party materials remain subject to their own rights.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-087 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-21. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	200,000	224,680
Negotiation reference - low	160,000	179,744
Negotiation reference - high	250,000	280,850
Recreation cost estimate	1,000,000	1,123,400
Marketability cost scenario	1,026,375	1,153,030
Monetisation cost scenario	860,625	966,826
Risk-adjusted strategic reference	860,565	966,759
Weighted economic reference	928,598	1,043,187

Milestone-conditioned reference

EUR 1,147,402; model change EUR 218,804. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Retained seller estimate; work breakdown required. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
