# Visionair Research Engine

Compare AI research results and examine ECG learning studies through repeatable evaluation.

## Product overview

An AI and ECG research engine with checkpoint provenance, subject-safe training, repeated-seed governance and a locked external-generalisation protocol.

## Potential acquirers

- AI research groups
- Cardiac-signal research teams
- Scientific software vendors

## Documented functions

- Run controlled AI and ECG benchmark studies
- Recover compatible checkpoints with trainer guards
- Retain subject-safe training and threshold records
- Apply locked external-generalisation contracts
- Report provenance and descriptive research results

## Available output types

Benchmark records / Cardiac study reports / Qualification dossiers

Visual & spatial software

# Defined work.
# Separate written terms.

| SELLER ASKING REFERENCE / AS IS | CURRENT OFFERED POSITION |
| --- | --- |
| **EUR 260,000** | **Developed software** |

## Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

Identified edition: 0.9.0

• Clinical validity, patient-care suitability, regulatory approval and superiority to third-party models are not established by engineering governance.

## Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

## Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

## Buyer information and next step

Quote TA-IP-051 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

# Prices & sources.

Price basis: 2026-10-21. EUR is the reference currency; market value is not established.

| PRICE / MODEL REFERENCE | EUR | USD - indicative |
|---|---|---|
| Seller asking reference | 260,000 | 292,084 |
| Negotiation reference - low | 210,000 | 235,914 |
| Negotiation reference - high | 325,000 | 365,105 |
| Recreation cost estimate | 1,200,500 | 1,348,642 |
| Marketability cost scenario | 1,188,495 | 1,335,155 |
| Monetisation cost scenario | 918,383 | 1,031,711 |
| Risk-adjusted strategic reference | 709,119 | 796,624 |
| Weighted economic reference | 969,692 | 1,089,352 |

## Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

## Cost basis

Recreation estimate: EUR 1,200,000 retained scope component plus EUR 500 for the explicitly scoped implementation work budget, giving EUR 1,200,500. The scoped budget assumes 8 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. The retained scope component has no complete per-role reconstruction budget and remains a low-confidence seller estimate. The asking reference and negotiation bounds preserve the seller-selected asking/cost relationships, rounded to EUR 500; they are transaction assumptions, not measured market value.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.

## Source references

WIPO - Intellectual Property Valuation Basics — The cost method

Knab - Software developer freelance rates in 2026

Upwork - Software developer hiring costs

European Central Bank - Euro reference exchange rate - US dollar

External sources inform the method, contractor-rate context and currency only. Project-specific prices and model factors remain seller assumptions. The marketability, monetisation and strategic references share a cost anchor; their weighted blend is not an independent appraisal.

USD display: EUR 1 = USD 1.1234; ECB 2026-10-21. EUR is authoritative.
