Adaptive General Reasoning Research Platform

Compare reasoning approaches in repeatable experiments and assess which results your evidence supports.

Product overview

A bounded reasoning research platform for repeatable experiments and evidence-led comparison.

Potential acquirers

- AI research groups
- Reasoning-tool developers
- Scientific software vendors

Documented functions

- Run reasoning experiments
- Study planning and uncertainty
- Compare research extensions
- Track claim-promotion conditions
- Retain reproducible evidence

Available output types

Reasoning study records / Comparative reports / Research release material

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 80,000 · indicative USD 89,712

Identified edition: 1.52.0

Research software · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Bounded reasoning research software. Broad general-intelligence claims are outside the offered scope.

Conditions before handover

• Dependency manifest exists without an identified lockfile; reproducibility should be reviewed.

• A detailed component inventory and licensing report are required for the agreed delivery scope.

• A security assessment or an explicit statement of its absence is required before acceptance.

• An explicit delivery manifest and handover scope remain to be agreed.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	80,000	89,712
Negotiation reference - low	65,000	72,891
Negotiation reference - high	100,000	112,140
Recreation cost estimate	1,300,000	1,457,820
Marketability cost scenario	1,068,925	1,198,692
Monetisation cost scenario	745,875	836,424
Risk-adjusted strategic reference	643,455	721,570
Weighted economic reference	913,169	1,024,028

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Milestone-conditioned reference

EUR 1,238,530; model change EUR 325,361.

Conditional model sensitivity only; no future asking price, income forecast or accepted scientific result.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Source reports 25/25 local targeted tests for v1.52 with deterministic finite candidate arbitration and controlled experiment selection.

Remaining limits

No general intelligence, language-model superiority, open-world self-improvement, independent human-level reasoning or scientific truth claim.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: R — A bounded reasoning research platform for repeatable experiments and evidence-led comparison. The offered edition and material boundaries govern review.

Evidence and validation: E4 — E3 plus repository-retained independent/external validation evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-064 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
