Adaptive Audio Synthesis Platform

Create and render audio for your creative tools or sound products, and keep your production work organised.

Product overview

An audio-synthesis product with repeatable rendering and governed production work.

Potential acquirers

- Audio tool vendors
- Sound-product developers
- Music software teams

Documented functions

- Create and render audio
- Manage durable render work
- Review output and service conditions
- Track authorised generation assets
- Retain production evidence

Available output types

Rendered audio / Job histories / Generation qualification records

Defined work. Separate written terms.

Seller asking reference / AS IS

EUR 425,000 · indicative USD 476,595

Identified edition: 0.14.2

Developed software · Conditional handover

Current scope and conditions

Seller-owned first-party rights plus specifically agreed transferable software/delivery artifacts; website displays and third-party ownership rights excluded from standalone software asset value.

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Conditions before handover

• An explicit delivery manifest and handover scope remain to be agreed.

The seller offers only the expressly agreed first-party rights it owns or controls, to the extent transferable. Third-party materials retain their own terms. Independent title and freedom-to-operate opinions are not established.

Prices & sources.

Price basis: 2026-11-10. EUR is authoritative; market value is not established.

Price / model reference	EUR	USD - indicative
Seller asking reference	425,000	476,595
Negotiation reference - low	340,000	381,276
Negotiation reference - high	535,000	599,949
Recreation cost estimate	1,800,000	2,018,520
Marketability cost scenario	2,070,000	2,321,298
Monetisation cost scenario	2,551,500	2,861,252
Risk-adjusted strategic reference	2,088,498	2,342,042
Weighted economic reference	2,105,274	2,360,854

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Coverage describes stated seller estimates only. The retained earlier anchor lacks a complete work breakdown; added scope does not validate it.

Individual source review.

Reviewed 10 November 2026. Current main documentation, source inventory and open candidate status; no fresh execution of private product tests.

Retained source evidence

Source describes a procedural renderer, owned small learned-control checkpoint, authenticated job runtime and CUDA/Colab training definition; no trained neural-waveform checkpoint has qualified for product integration.

Remaining limits

V0.14.2 has no promoted neural waveform generator, third-party model rights clearance or commercial music-quality evidence. Model-training scripts alone do not establish Suno-equivalent synthesis.

Development position

No open pull request at the captured source snapshot.

Acquisition evidence profile

Technical scope: V — An audio-synthesis product with repeatable rendering and governed production work. The offered edition and material boundaries govern review.

Evidence and validation: E3 — Tests, validation and provenance/release evidence identified. Detailed source-specific records are reviewed under agreed confidentiality; independent intended-use acceptance remains separate.

Rights and component obligations: R2 — R1 plus dependency/third-party disclosure basis identified. Review the agreed first-party rights, third-party obligations and delivery perimeter.

Commercial basis: C2 — Seller ask and reproducible economic reference established. Market value is not established.

Delivery and handover: T3 — T2 plus validation, build/release and dependency-disclosure evidence. The listed conditions and written delivery agreement govern acceptance.

Buyer information and next step

Quote TA-IP-069 and the project title. Agree the exact first-party edition, rights, delivery manifest and recipient acceptance separately.
