Adaptive Audio Production System

Analyse, process and master your audio in one workflow, with quality checks to help you review the result.

Product overview

A local audio-production foundation for repeatable processing and mastering review.

Potential acquirers

- Audio software vendors
- Music production teams
- Creator-tool developers

Documented functions

- Analyse supported audio
- Apply repeatable processing
- Review mastering targets
- Detect output quality issues
- Retain production manifests

Available output types

Processed audio / Quality reports / Production histories

Audio, publishing & media

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 95,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: 0.1.0

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-060 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	95,000	106,904
Negotiation reference - low	75,000	84,398
Negotiation reference - high	120,000	135,036
Recreation cost estimate	600,000	675,180
Marketability cost scenario	586,500	659,988
Monetisation cost scenario	637,875	717,801
Risk-adjusted strategic reference	491,752	553,369
Weighted economic reference	566,988	638,032

Milestone-conditioned reference

EUR 701,758; model change EUR 134,770. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
