TA-IP-076 / Ada / INDEPENDENT IP ASSET

Adaptive Neural Architecture Platform

Evaluate how changes to a learning model affect its performance before choosing a new version.

Product overview

An adaptive learning-model prototype for governed development and candidate acceptance.

Potential acquirers

- AI product developers
- Research groups
- Model-engineering teams

Documented functions

- Build and train learning candidates
- Study controlled model growth
- Compare validation outcomes
- Govern candidate acceptance
- Recover and replay retained states

Available output types

Candidate models / Evaluation records / Recovery material

AI & decision software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 190,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: 0.5.0

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-076 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	190,000	213,807
Negotiation reference - low	150,000	168,795
Negotiation reference - high	240,000	270,072
Recreation cost estimate	1,000,000	1,125,300
Marketability cost scenario	1,075,250	1,209,979
Monetisation cost scenario	860,625	968,461
Risk-adjusted strategic reference	901,545	1,014,509
Weighted economic reference	952,716	1,072,091

Milestone-conditioned reference

EUR 1,179,206; model change EUR 226,490. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
