Collective Reality Engine

Explore shared fictional worlds, review the consequences of participant decisions and preserve a consistent history of each scenario.

Product overview

A shared-world pre-alpha asset for consistent history and participant-limited views.

Potential acquirers

- Interactive storytelling studios
- Game-tool developers
- Simulation research groups

Documented functions

- Define shared-world scenarios
- Review proposed participant actions
- Retain committed world histories
- Present permitted viewpoints
- Replay narrative consequences

Available output types

Scenario worlds / Event histories / Replayable narrative records

Enterprise & commerce software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 24,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Scope and transfer review required

Identified edition: 0.3.0

• A shared-world pre-alpha prototype. Online multiplayer, autonomous actors and large-scale operation are not established.

• The delivery perimeter and transfer requirements need further review before terms can be finalised.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-104 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	24,000	27,007
Negotiation reference - low	19,200	21,606
Negotiation reference - high	30,000	33,759
Recreation cost estimate	80,000	90,024
Marketability cost scenario	61,200	68,868
Monetisation cost scenario	56,700	63,805
Risk-adjusted strategic reference	30,345	34,147
Weighted economic reference	54,201	60,992

Milestone-conditioned reference

EUR 64,556; model change EUR 10,355. Qualify the defined existing software, source-specific evidence, rights and recipient handover; separately resolve the listed project conditions. Scientific, physical or production claims require their own evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
