DMT Laser Phenomenology Engine

Organise reported visual experiences and compare study records for structured phenomenology research.

Product overview

A phenomenology research and evidence platform combining controlled computational studies, governed observation intake, portable provenance packages and bounded scalar measurement adapters.

Potential acquirers

- Perception research groups
- Scientific data teams
- Research software vendors

Documented functions

- Organise governed observations and declared study plans
- Apply scalar measurement contracts and unit conversions
- Propagate standard uncertainty through affine transformations
- Verify portable evidence capsules and observer-key histories
- Retain reproducible computational and package checks

Available output types

Study dossiers / Hypothesis comparisons / Review records

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 213,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

Identified edition: 8.28.0

• Metadata, provenance and scalar transformations do not authenticate empirical origin or establish neurobiology, causality, clinical effects or a physical interpretation.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-023 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	213,000	239,689
Negotiation reference - low	172,500	194,114
Negotiation reference - high	269,000	302,706
Recreation cost estimate	1,167,000	1,313,225
Marketability cost scenario	694,365	781,369
Monetisation cost scenario	805,230	906,125
Risk-adjusted strategic reference	237,797	267,593
Weighted economic reference	674,898	759,463

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Recreation estimate: EUR 1,150,000 retained scope component plus EUR 17,000 for the explicitly scoped implementation work budget, giving EUR 1,167,000. The scoped budget assumes 160 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. The retained scope component has no complete per-role reconstruction budget and remains a low-confidence seller estimate. The asking reference and negotiation bounds preserve the seller-selected asking/cost relationships, rounded to EUR 500; they are transaction assumptions, not measured market value.
