# Industrial Predictive Maintenance & RUL Platform

Study equipment condition and compare remaining-life estimates to support your maintenance research.

## Product overview

An industrial prediction asset for condition modelling and remaining-life studies.

## Potential acquirers

- Maintenance software vendors
- Industrial research groups
- Equipment-data teams

## Documented functions

- Organise machine telemetry
- Review data quality
- Compare condition models
- Estimate remaining service life
- Retain validation evidence

## Available output types

Prediction records / Quality reports / Benchmark dossiers

Operations, reliability & digital twins

# Defined work.
# Separate written terms.

| SELLER ASKING REFERENCE / AS IS | CURRENT OFFERED POSITION |
| --- | --- |
| **EUR 360,000** | **Developed software** |

## Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

Identified edition: 0.2.0

• Condition and remaining-life research software. Equipment-specific predictive performance requires representative data and acceptance.

## Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

## Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

## Buyer information and next step

Quote TA-IP-059 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

# Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

| PRICE / MODEL REFERENCE | EUR | USD - indicative |
|---|---|---|
| Seller asking reference | 360,000 | 405,108 |
| Negotiation reference - low | 290,000 | 326,337 |
| Negotiation reference - high | 450,000 | 506,385 |
| Recreation cost estimate | 1,000,000 | 1,125,300 |
| Marketability cost scenario | 1,575,000 | 1,772,348 |
| Monetisation cost scenario | 2,200,000 | 2,475,660 |
| Risk-adjusted strategic reference | 2,537,266 | 2,855,185 |
| Weighted economic reference | 1,893,043 | 2,130,241 |

## Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

## Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

## Source references

WIPO - Intellectual Property Valuation Basics — The cost method

Knab - Software developer freelance rates in 2026

Upwork - Software developer hiring costs

European Central Bank - Euro reference exchange rate - US dollar

External sources inform the method, contractor-rate context and currency only. Project-specific prices and model factors remain seller assumptions. The marketability, monetisation and strategic references share a cost anchor; their weighted blend is not an independent appraisal.

USD display: EUR 1 = USD 1.1253; ECB 2026-10-16. EUR is authoritative.
