Modular Aerospace Research Platform

Turn aerospace observations into replayable research cases, compare declared evidence and keep uncertainty visible.

Product overview

A research workbench for organising aerial observations and retaining uncertain events for review.

Potential acquirers

- Aerospace research groups
- Observation-network developers
- Scientific data teams

Documented functions

- Review aerial-event observations
- Compare observations from multiple locations
- Retain events requiring investigation
- Document uncertainty
- Cross-reference permitted external records

Available output types

Event dossiers / Observation archives / Review records

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 61,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: 0.1.0

• Research observation software; calibrated field performance and combined sensor interpretation require separate qualification.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-001 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	61,000	68,643
Negotiation reference - low	47,500	53,452
Negotiation reference - high	74,500	83,835
Recreation cost estimate	540,000	607,662
Marketability cost scenario	351,135	395,132
Monetisation cost scenario	309,825	348,646
Risk-adjusted strategic reference	174,104	195,919
Weighted economic reference	328,128	369,242

Milestone-conditioned reference

EUR 386,507; model change EUR 58,379. Qualify the defined existing software, source-specific evidence, rights and recipient handover; separately resolve the listed project conditions. Scientific, physical or production claims require their own evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The recreation anchor combines an identified base with separately scoped implementation work. The base remains a seller assumption; the scoped component has a role/work-package reproduction budget. Each component is counted once.
