ModularKey Cryptanalysis Platform

Explore classical ciphers, test candidate interpretations and review your cryptanalysis results.

Product overview

A classical-cipher analysis product with repeatable transformation and candidate-review workflows.

Potential acquirers

- Cryptography education providers
- Historical-text researchers
- Security research teams

Documented functions

- Work with configurable symbol sets
- Transform classical cipher material
- Analyse candidate readings
- Review key-recovery results
- Retain reproducible analysis

Available output types

Candidate readings / Analysis reports / Validation records

Security, identity & traceability

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 95,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

Identified edition: 2.1.0

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-007 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	95,000	106,904
Negotiation reference - low	75,000	84,398
Negotiation reference - high	120,000	135,036
Recreation cost estimate	450,000	506,385
Marketability cost scenario	330,750	372,193
Monetisation cost scenario	310,500	349,406
Risk-adjusted strategic reference	113,271	127,464
Weighted economic reference	280,395	315,528

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.

Source references
