Organismal State Dynamics Research Platform

Study changes in organismal regulation through controlled models and documented observations.

Product overview

A research workbench for organismal state changes and controlled human-state hypotheses.

Potential acquirers

- Human-state research groups
- Scientific software vendors
- Behavioural research teams

Documented functions

- Organise research observations
- Record protocol execution
- Review signal quality
- Study bounded state hypotheses
- Compare simulation and participant evidence

Available output types

Protocol records / State-study reports / Research evidence packages

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 120,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: 0.7.0

• Research software for organismal and human-state hypotheses. Empirical conclusions require suitable study evidence.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-066 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	120,000	135,036
Negotiation reference - low	95,000	106,904
Negotiation reference - high	150,000	168,795
Recreation cost estimate	900,000	1,012,770
Marketability cost scenario	747,787	841,485
Monetisation cost scenario	774,563	871,616
Risk-adjusted strategic reference	626,983	705,544
Weighted economic reference	748,914	842,753

Milestone-conditioned reference

EUR 918,164; model change EUR 169,250. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
