Organizational Memory Engine

Keep earlier software decisions accessible so your team can review precedents when planning new changes.

Product overview

A governed organisational memory and software-change review engine with precedent retrieval, acceptance decisions, durable recovery freshness, trust-store contracts and offline release evidence.

Potential acquirers

- Engineering organisations
- Developer-tool vendors
- Enterprise knowledge teams

Documented functions

- Retrieve attributable software-change precedents
- Govern candidate acceptance and recovery decisions
- Enforce recovery evidence freshness
- Review trust-store and release consistency
- Run the offline release qualification gate

Available output types

Precedent records / Risk assessments / Decision histories

Enterprise & commerce software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 703,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

Identified edition: 2.31.0

• Governance records do not authorise production traffic or infrastructure. Provider API execution and public-key nonrepudiation are outside the demonstrated core.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-019 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	703,000	791,086
Negotiation reference - low	562,500	632,981
Negotiation reference - high	879,000	989,139
Recreation cost estimate	1,908,500	2,147,635
Marketability cost scenario	3,005,888	3,382,526
Monetisation cost scenario	4,389,550	4,939,561
Risk-adjusted strategic reference	4,842,372	5,449,121
Weighted economic reference	3,651,043	4,108,519

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Recreation estimate: EUR 1,900,000 retained scope component plus EUR 8,500 for the explicitly scoped implementation work budget, giving EUR 1,908,500. The scoped budget assumes 80 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. The retained scope component has no complete per-role reconstruction budget and remains a low-confidence seller estimate. The asking reference and negotiation bounds preserve the seller-selected asking/cost relationships, rounded to EUR 500; they are transaction assumptions, not measured market value.

Source references

WIPO - Intellectual Property Valuation Basics — The cost method

Knab - Software developer freelance rates in 2026

Upwork - Software developer hiring costs

European Central Bank - Euro reference exchange rate - US dollar

External sources inform the method, contractor-rate context and currency only. Project-specific prices and model factors remain seller assumptions. The marketability, monetisation and strategic references share a cost anchor; their weighted blend is not an independent appraisal.

USD display: EUR 1 = USD 1.1253; ECB 2026-10-16. EUR is authoritative.
