Research Intelligence Fabric

Organise research programmes, manage review work and keep your study records accessible.

Product overview

An event-driven research orchestration platform with authenticated human review, durable PostgreSQL/outbox state, RabbitMQ workers, guarded dual-source synthesis and bounded operational observability.

Potential acquirers

- Research organisations
- Enterprise workflow vendors
- Programme-management teams

Documented functions

- Coordinate durable research and human approval workflows
- Retain both source streams in review packages
- Guard synthesis and untrusted-source boundaries
- Track outbox retries and worker health
- Generate live Docker qualification evidence bundles

Available output types

Programme histories / Review records / Operational reports

Evidence & investigation software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 282,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

Identified edition: 4.4.0

• Evidence coverage is a structural measure, not a probability of truth. Provider results, source rights, target-environment security and operational acceptance require separate review.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-011 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-18. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	282,000	317,335
Negotiation reference - low	226,500	254,880
Negotiation reference - high	352,500	396,668
Recreation cost estimate	856,500	963,819
Marketability cost scenario	1,083,473	1,219,232
Monetisation cost scenario	1,329,716	1,496,329
Risk-adjusted strategic reference	1,093,155	1,230,127
Weighted economic reference	1,079,367	1,214,612

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Recreation estimate: EUR 850,000 retained scope component plus EUR 6,500 for the explicitly scoped implementation work budget, giving EUR 856,500. The scoped budget assumes 64 equivalent hours at EUR 94/hour plus 15%, rounded down to EUR 500. The retained scope component has no complete per-role reconstruction budget and remains a low-confidence seller estimate. The asking reference and negotiation bounds preserve the seller-selected asking/cost relationships, rounded to EUR 500; they are transaction assumptions, not measured market value.

Source references

WIPO - Intellectual Property Valuation Basics — The cost method

Knab - Software developer freelance rates in 2026

Upwork - Software developer hiring costs

European Central Bank - Euro reference exchange rate - US dollar

External sources inform the method, contractor-rate context and currency only. Project-specific prices and model factors remain seller assumptions. The marketability, monetisation and strategic references share a cost anchor; their weighted blend is not an independent appraisal.

USD display: EUR 1 = USD 1.1253; ECB 2026-10-16. EUR is authoritative.
