## Current scope and conditions

Research software for bounded studies; scientific outcomes require their own evidence.

Scope and transfer review required

Identified edition: 0.23.0.dev0

• Geophysical hypothesis research software. Physical effects and field applicability require suitable scientific evidence.

• The delivery perimeter and transfer requirements need further review before terms can be finalised.

## Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

## Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

| Risk-adjusted strategic reference | 47,414 | 53,355 |
| Weighted economic reference | 243,605 | 274,129 |

## Milestone-conditioned reference

EUR 286,816; model change EUR 43,211. Reach the next portfolio maturity stage with source-pinned, reproducible release checks, bounded claims and agreed handover evidence.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

## Cost basis

The retained recreation anchor has no explicit per-role work-package budget in the current methodology register. It remains a low-confidence seller estimate requiring reconstruction before reliance.
