Synthetic Consciousness Engineering Platform

Explore controlled simulations of adaptive behaviour and compare recorded experiments to assess questions for further research.

Product overview

An experimental research asset for testable properties of synthetic-consciousness theories.

Potential acquirers

- Cognition research groups
- AI research teams
- Scientific software vendors

Documented functions

- Run controlled computational studies
- Compare candidate theoretical properties
- Review simpler research baselines
- Retain experiment histories
- Support repeatable campaign recovery

Available output types

Experiment records / Theory comparisons / Research recovery material

AI & decision software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 60,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

Identified edition: v0.4.0.dev0

• Experimental research software. Consciousness is a research subject; demonstrated sentience is not offered.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-099 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-21. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	60,000	67,158
Negotiation reference - low	48,000	53,726
Negotiation reference - high	75,000	83,948
Recreation cost estimate	200,000	223,860
Marketability cost scenario	168,300	188,378
Monetisation cost scenario	114,750	128,440
Risk-adjusted strategic reference	83,449	93,404
Weighted economic reference	135,817	152,020

Milestone-conditioned reference

EUR 161,548; model change EUR 25,731. Evidence a reproducible release, agreed component and rights boundaries, use-specific qualification and recipient acceptance of the defined software package.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

Disclosed base/increment assumptions reconcile to the retained recreation anchor. Effort remains an analyst estimate for its original scope.

Stated scope reconciled to explicit budgets. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.

Source references
