Evidence-Governed Intelligence Platform

Register bounded evidence, retain review decisions and contradictions, and trace provenance within controlled research or governance workflows.

Product overview

An early evidence-governance prototype with machine-readable contracts and an in-memory evidence/provenance registry.

Potential acquirers

- Evidence-workflow software vendors
- Enterprise governance and compliance teams
- Controlled research-workflow developers

Documented functions

- Review bounded machine-readable evidence contracts
- Register evidence with applicability and validity conditions
- Retain explicit review state and contradictions
- Trace hash-linked provenance records
- Export and verify bounded evidence records

Available output types

Evidence and review records / Provenance-chain records / Contract validation reports

Evidence & investigation software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 7,000	**Prototype**

Current scope and conditions

An early implemented prototype for bounded evaluation. Durable operation, wider engines and recipient acceptance remain separate.

Available for acquisition discussion

Identified edition: R3 / package 0.1.0.dev1

• R3 provides a bounded in-memory prototype and reviewed contracts; persistence, APIs, production interfaces and the broader AI/digital-twin programme remain later development.

• Software provenance and review gates do not authenticate external facts, confer legal authority or establish independent scientific or regulatory acceptance.

• Legacy source archives, other portfolio assets, third-party content and future modules require separate scope and rights review.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-095 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-28. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	7,000	7,793
Negotiation reference - low	5,500	6,123
Negotiation reference - high	8,500	9,463
Recreation cost estimate	23,000	25,606
Marketability cost scenario	19,355	21,548
Monetisation cost scenario	17,854	19,877
Risk-adjusted strategic reference	9,597	10,684
Weighted economic reference	16,551	18,426

Milestone-conditioned reference

Not established. No accepted next-stage scope or attributable market/income evidence supports a separate future amount.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The recreation estimate adopts the lowest explicitly scoped seller effort scenario. It is not expenditure, an absolute minimum, an independent quote or market value. Only the agreed first-party R3 contract, evidence/provenance implementation and associated documentation are priced. The legacy source corpus and already priced portfolio foundations are excluded from this foreground estimate. Persistent storage, APIs, user interfaces, AI/digital-twin/risk engines, domain deployments and future productisation are not included.

Stated scope reconciled to explicit budgets. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
