Adaptive Audio MIDI Transcription Studio

Turn your recordings into editable MIDI tracks, inspect the notes and take individual parts into your music workflow.

Product overview

An audio-transcription prototype for editable, inspectable music tracks.

Potential acquirers

- Music software vendors
- Production studios
- Creator-tool developers

Documented functions

- Import supported recordings
- Separate source parts when configured
- Create approximate note tracks
- Inspect tracks in a piano roll
- Export individual or combined MIDI

Available output types

Editable note tracks / Piano-roll views / Multitrack MIDI files

Audio, publishing & media

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 80,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Scope and transfer review required

• An audio-to-MIDI prototype. Transcription quality and compatibility must be assessed against representative buyer-supplied music.

• The delivery perimeter and transfer requirements need further review before terms can be finalised.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-085 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
