Advanced Ground Vehicle Engineering

Compare ground-vehicle concepts and assess design choices before committing to further engineering work.

Product overview

A ground-vehicle analysis foundation for repeatable concept studies and reference comparisons.

Potential acquirers

- Vehicle engineering teams
- Simulation vendors
- Engineering consultancies

Documented functions

- Compare mobility and energy concepts
- Review structural and wear observations
- Assess uncertainty
- Compare predictions with supplied reference data
- Retain qualification records

Available output types

Concept comparisons / Reference-data reports / Engineering evidence

Aerospace & mobility engineering

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 55,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-034 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
