AxiomFactor

Explore mathematical problems and compare computational approaches through controlled research studies.

Product overview

A mathematical computing research product for controlled factorisation and feasibility studies.

Potential acquirers

- Quantum-computing research teams
- Scientific software vendors
- Mathematical research groups

Documented functions

- Run bounded factorisation studies
- Compare resource scenarios
- Review timing and uncertainty assumptions
- Explore feasible study configurations
- Retain reproducible calculations

Available output types

Feasibility reports / Resource comparisons / Study records

Physics, mathematics & optimisation

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 150,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Mathematical research software. Practical quantum advantage and commercial factorisation performance are not established.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-042 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
