Collective Reality Engine

Explore shared fictional worlds, review the consequences of participant decisions and preserve a consistent history of each scenario.

Product overview

A shared-world pre-alpha asset for consistent history and participant-limited views.

Potential acquirers

- Interactive storytelling studios
- Game-tool developers
- Simulation research groups

Documented functions

- Define shared-world scenarios
- Review proposed participant actions
- Retain committed world histories
- Present permitted viewpoints
- Replay narrative consequences

Available output types

Scenario worlds / Event histories / Replayable narrative records

Enterprise & commerce software

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 24,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Scope and transfer review required

• A shared-world pre-alpha prototype. Online multiplayer, autonomous actors and large-scale operation are not established.

• The delivery perimeter and transfer requirements need further review before terms can be finalised.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-104 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
