Custody Integrity Assurance Platform

Track custody handovers and examine whether the accompanying records support a clear chain of responsibility.

Product overview

A custody-assurance prototype for accountable transfers between managed organisations.

Potential acquirers

- Supply-chain software vendors
- Custody service providers
- Audit and assurance teams

Documented functions

- Record custody transitions
- Preserve transfer history
- Review implementation conformance
- Study operational recovery
- Prepare independent review material

Available output types

Custody records / Conformance reports / Continuity evidence

Security, identity & traceability

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 140,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-009 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
