DMT Laser Phenomenology Engine

Organise reported visual experiences and compare study records for structured phenomenology research.

Product overview

A computational research workbench for recorded visual phenomenology and controlled study evidence.

Potential acquirers

- Perception research groups
- Scientific data teams
- Research software vendors

Documented functions

- Organise phenomenology records
- Run controlled computational studies
- Retain calibration and review records
- Compare declared hypotheses
- Prepare attributable evidence packages

Available output types

Study dossiers / Hypothesis comparisons / Review records

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 210,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• A research workbench for recorded visual phenomena and controlled study material; scientific interpretations require separate review.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step
