LatticeDepth

Organise subsurface-material records and assess the evidence available for a research or acquisition review.

Product overview

A subsurface-materials evidence asset with portable qualification and acquisition review.

Potential acquirers

- Materials research groups
- Scientific assurance vendors
- Engineering data teams

Documented functions

- Organise materials evidence
- Review qualification decisions
- Retain transaction provenance
- Prepare portable review packages
- Verify acquisition package consistency

Available output types

Materials dossiers / Qualification records / Acquisition review packages

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 255,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Evidence qualification for supplied materials data. Independent physical identification of subsurface materials is not established.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-043 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
