Protein Structure Evidence Qualification Platform

Review computational protein-structure evidence and identify which questions still need scientific investigation.

Product overview

A protein-structure evidence workbench for controlled model admission and scientific review.

Potential acquirers

- Biotechnology research teams
- Computational biology groups
- Scientific software vendors

Documented functions

- Register computational structure evidence
- Compare independent model records
- Review model integrity
- Track scientific approval gates
- Retain canonical review decisions

Available output types

Structure review dossiers / Integrity findings / Gate-decision records

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 100,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Computational biology research software. Model outputs do not establish experimental or clinical validation.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-015 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
