TLS Virtual

Explore rotating-machine behaviour in simulation and review diagnostic demonstrations and reports.

Product overview

A rotating-machine simulation and diagnostic demonstrator with an explorable twin view.

Potential acquirers

- Industrial software vendors
- Maintenance research teams
- Technical training providers

Documented functions

- Simulate healthy and degraded machines
- Explore fault scenarios
- Review explanatory diagnostics
- Retain machine-state histories
- Produce traceable reports

Available output types

Diagnostic demonstrations / Twin snapshots / Scenario reports

Operations, reliability & digital twins

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 195,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-010 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
