Universal Video Intelligence Platform

Control your video viewing, keep and recover your own timecoded research notes, and turn reviewed observations into source-linked project investigations.

Product overview

A local-first video and research-workspace prototype with controlled exports.

Potential acquirers

- Video-tool developers
- Research software vendors
- Knowledge-workflow teams

Documented functions

- Adjust viewing controls
- Keep video bookmarks and notes
- Recover private research drafts
- Prepare source-aware project research
- Export controlled review material
- Search private bookmarks and notes locally (v0.9.9 development candidate)

Available output types

Bookmarks / Research workspaces / Offline review exports

Audio, publishing & media

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 36,000	**Prototype**

Current scope and conditions

A prototype offered for evaluation and continued development; production acceptance is separate.

Available for acquisition discussion

• Local video and research workflows. External-platform access, content permissions and production acceptance are separately scoped.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-101 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.
