Verifiable Execution Control Platform

Review and authorise software operations, and follow the evidence needed for a controlled execution workflow.

Product overview

An execution-control asset for authorised actions and attributable operational transitions.

Potential acquirers

- Industrial control vendors
- Enterprise automation teams
- Edge-system integrators

Documented functions

- Review bounded execution requests
- Control action authorisation
- Record state transitions
- Retain execution histories
- Prepare software acceptance evidence

Available output types

Execution records / Authorisation decisions / Acceptance dossiers

Software assurance & infrastructure

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 450,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

• Target-environment suitability, deployment acceptance and any required independent qualification are agreed separately.

Offered first-party perimeter

• The specifically agreed first-party software or research work product
