Bio-Inspired Neural Dynamics & Active Inference Simulation Platform

Explore bio-inspired neural dynamics, compare controlled perturbation studies and examine the evidence behind synthetic research results.

Product overview

Computational-neuroscience research software for synthetic neural dynamics, controlled perturbations, interaction stability and reproducible comparison evidence.

Potential acquirers

- Neuroscience research groups
- AI research teams
- Scientific software vendors

Documented functions

- Model supported synthetic neural dynamics
- Compare controlled perturbation and stability studies
- Review research-source and experiment lineage
- Compare fixed-grid interaction fingerprints
- Export bounded research and qualification reports

Available output types

Synthetic simulation outputs / Interaction comparison reports / Lineage and qualification summaries

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 929,000	**Developed software**

Current scope and conditions

Developed research or product software within the identified edition and material boundaries. Intended-use and recipient acceptance remain separate.

Available for acquisition discussion

Identified edition: 2.6.0

• Software and synthetic-study results do not establish biological equivalence, clinical relevance, cognition or causal validity.

• Third-party research data retains its own rights and qualification requirements.

• Exact numerical replay has not fully reconciled in the current local environment; qualify reproducibility in the recipient environment before relying on interaction qualification outputs.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-077 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-25. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	929,000	1,039,830
Negotiation reference - low	743,000	831,640
Negotiation reference - high	1,164,500	1,303,425
Recreation cost estimate	3,313,500	3,708,801
Marketability cost scenario	3,238,946	3,625,352
Monetisation cost scenario	3,802,241	4,255,848
Risk-adjusted strategic reference	3,267,890	3,657,749
Weighted economic reference	3,380,374	3,783,653

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The retained expressly priced scope and successive non-overlapping implementation budgets reconcile below. Equivalent effort and historical anchors remain seller assumptions; actual expenditure, independent quotations and market value are not established. The previously priced neural simulation and source-adapter foundations are reused once. Biological/clinical validation, third-party data ownership, new scientific findings and production qualification are excluded.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
