# Gossquibble

Prepare and review entertainment-satire publishing workflows with editorial timing, controlled release records and a prelaunch site builder.

## Product overview

A standalone prelaunch publishing-software asset for American-English entertainment satire, editorial workflow, release governance and static output preparation.

## Potential acquirers

- Digital media publishers
- Entertainment editorial teams
- Publishing-workflow software vendors

## Documented functions

- Organise editorial desks and draft workflows
- Review source and publication conditions
- Plan relevance, rotation and editorial timing
- Prepare controlled publication and correction records
- Build a local prelaunch presentation

## Available output types

Editorial review records / Scheduling and rotation plans / Release review packages / Static prelaunch output

Audio, publishing & media

# Defined work.
# Separate written terms.

| SELLER ASKING REFERENCE / AS IS | CURRENT OFFERED POSITION |
| --- | --- |
| **EUR 14,000** | **Prototype** |

## Current scope and conditions

Available as a specifically scoped research or development software asset. Independent application, rights and handover acceptance remain separate.

Available for acquisition discussion

Identified edition: R5.7 prelaunch

• Prelaunch software; live publication, licensed news feeds and independent editorial/legal acceptance remain open.

• Article drafts, brand/domain rights, personal data, operating ledgers and third-party content require separately agreed rights and scope.

• The portfolio offers the software asset; it does not represent an operating publication, audience, income or legally certified autonomous newsroom.

## Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

## Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

## Buyer information and next step

Quote TA-IP-109 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

# Prices & sources.

Price basis: 2026-10-25. EUR is the reference currency; market value is not established.

| PRICE / MODEL REFERENCE | EUR | USD - indicative |
|---|---|---|
| Seller asking reference | 14,000 | 15,670 |
| Negotiation reference - low | 11,000 | 12,312 |
| Negotiation reference - high | 17,500 | 19,588 |
| Recreation cost estimate | 46,500 | 52,047 |
| Marketability cost scenario | 35,573 | 39,817 |
| Monetisation cost scenario | 32,957 | 36,889 |
| Risk-adjusted strategic reference | 17,638 | 19,742 |
| Weighted economic reference | 31,504 | 35,262 |

## Milestone-conditioned reference

Not established. No accepted next-maturity qualification or attributable market/income evidence supports a separate future amount.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

## Cost basis

The recreation estimate is the lowest explicitly scoped equivalent-effort budget below. It is not recorded expenditure, an absolute cost floor, an independent quotation or an established market value. First-party software and agreed templates only. Live operation, source/content licences, an operating business, audience, domain entitlement, model/API usage and independent legal clearance are excluded.

Stated scope reconciled to explicit budgets. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.

## Source references

WIPO - Intellectual Property Valuation Basics — The cost method

Knab - Software developer freelance rates in 2026

Upwork - Software developer hiring costs

European Central Bank - Euro reference exchange rate - US dollar

External sources inform the method, contractor-rate context and currency only. Project-specific prices and model factors remain seller assumptions. The marketability, monetisation and strategic references share a cost anchor; their weighted blend is not an independent appraisal.

USD display: EUR 1 = USD 1.1193; ECB 2026-10-23. EUR is authoritative.
