LatticeDepth

Organise subsurface-material records and assess the evidence available for a research or acquisition review.

Product overview

A research platform for assessing materials evidence and preparing reviewable qualification and transfer records.

Potential acquirers

- Materials research groups
- Scientific assurance vendors
- Engineering data teams

Documented functions

- Organise subsurface-materials evidence
- Assess research qualification records
- Review trust continuity
- Coordinate multi-party evidence approval
- Prepare offline acquisition review outputs

Available output types

Qualification summaries / Governed review records / Transfer review packages

Scientific observation & life sciences

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 256,500	**Developed software**

Current scope and conditions

Materials-evidence research software with controlled trust and review workflows. Physical and scientific qualification remain separate.

Available for acquisition discussion

Identified edition: 0.0.23

• Materials research and evidence-governance software; no physical operation, hardware safety authority or independent scientific certification is offered.

Offered first-party perimeter

• The specifically agreed first-party software or research work product

• Associated first-party product documentation and retained evaluation material

• The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-043 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-21. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	256,500	287,100
Negotiation reference - low	206,000	230,576
Negotiation reference - high	322,000	360,415
Recreation cost estimate	855,000	957,002
Marketability cost scenario	835,762	935,468
Monetisation cost scenario	1,327,388	1,485,745
Risk-adjusted strategic reference	843,231	943,828
Weighted economic reference	941,511	1,053,833

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The recreation estimate comprises the retained expressly priced scope and the separately disclosed non-overlapping implementation budgets. Historical anchors and each successive scoped increment reconcile in the calculation below. Equivalent effort is a seller estimate; market value, actual expenditure and independent quotations are not established. Reuses the previously priced materials-evidence platform. Physical experiments, hardware authority and scientific qualification are excluded.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
