Plant Environment Decision Intelligence Platform

Assess plants against site conditions, manage versioned planting plans and compare the evidence behind retained assessment results.

Product overview

A plant-environment decision workbench for site suitability, versioned planting plans and evidence-backed comparison of retained assessments.

Potential acquirers

- Garden-planning software vendors
- Horticultural service firms
- Landscape planning teams

Documented functions

- Assess several candidate species against one site
- Manage owner-scoped projects, sites and planting zones
- Retain versioned planting-plan scenarios
- Export assessment inputs, results and integrity records
- Compare retained scenarios and explain material differences

Available output types

Viability reports / Planning recommendations / Data-quality records

Specialist applications

Defined work.
Separate written terms.

SELLER ASKING REFERENCE / AS IS	CURRENT OFFERED POSITION
EUR 300,000	**Developed software**

Current scope and conditions

Existing software offered for evaluation against an agreed use and delivery scope.

Available for acquisition discussion

Identified edition: Retained assessment-comparison build

- Plant and site decision support. Local agronomic validation and production acceptance remain separately scoped.

Offered first-party perimeter

- The specifically agreed first-party software or research work product
- Associated first-party product documentation and retained evaluation material
- The expressly agreed transferable first-party rights

Separately scoped or excluded

Third-party software, data, media, models and service entitlements beyond their own terms

Personal, customer and author content, private accounts and credentials

Future development, hosting, hardware, support and operating businesses unless expressly agreed

Buyer information and next step

Quote TA-IP-008 and the project title when discussing your intended use through the verified seller contact channel supplied with this portfolio. Detailed diligence is handled through an agreed review process.

The asking reference is an indicative seller choice, not an independent market appraisal. Rights, exact delivery, acceptance, consideration and taxes require separate written terms. Viewing this document grants no software or IP rights. Buyer descriptions indicate potential fit, not existing customers or contracts.

Prices & sources.

Price basis: 2026-10-21. EUR is the reference currency; market value is not established.

PRICE / MODEL REFERENCE	EUR	USD - indicative
Seller asking reference	300,000	335,790
Negotiation reference - low	239,000	267,513
Negotiation reference - high	378,000	423,095
Recreation cost estimate	1,000,000	1,119,300
Marketability cost scenario	1,265,000	1,415,915
Monetisation cost scenario	1,485,000	1,662,161
Risk-adjusted strategic reference	1,276,304	1,428,567
Weighted economic reference	1,246,706	1,395,438

Milestone-conditioned reference

Not established. No independently supported higher maturity amount or new attributable market/income evidence is established.

This is a conditional maturity sensitivity, not a current asking price, forecast or established market value.

Cost basis

The recreation anchor combines an identified base with separately scoped implementation work. The base remains a seller assumption; the scoped component has a role/work-package reproduction budget. Each component is counted once.

Partial scoped budget; retained anchor remains provisional. Budget coverage concerns the stated priced scope; independent quotation and market value are not established.
