Autonomous Adaptation Framework

Evaluate recovery options when a system degrades, and examine whether continuity can be preserved.

Product overview

A resilience research asset for controlled recovery when systems degrade.

Documented functions

- Detect modelled degradation
- Preserve a trusted operating scope
- Study recovery choices
- Review continuity conditions
- Retain conformance and execution evidence

Potential buyer fit

Reliability software vendors / Systems research teams / Platform engineering groups

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Recovery plans / Continuity studies / Qualification records

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 360,000	**EUR 1,650,000**

Current repository documentation

Current main baseline: 0.23.0.

The latest build is awaiting qualification; the earlier evaluated baseline remains separate.

Documentation checked: 17 October 2026. The main source is unchanged from the preceding directory review. Existing product qualification retains its source and execution date; tests were not rerun for this project.

Individual financial-reference review

Financial-reference review: 17 October 2026. Current main source and existing development heads reviewed. The priced scope and disclosed cost assumptions are unchanged; existing cost/asking references are retained. Market value remains NOT_ESTABLISHED. Original financial-reference date: 2026-10-12.

Commercial and delivery boundary

Amounts are seller model estimates, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-027-P: current documentation. TA-IP-027-C: financial-reference review, 17 October 2026. TA-IP-027-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Local checks are disclosed per project; see the exact source receipt and retained qualification scope.
