Evidence-Governed Software Assurance Platform

Compare software components against your requirements and review the evidence before selecting them.

Product overview

A software-assurance asset for controlled component discovery and qualification.

Documented functions

- Discover candidate components
- Review capability and rights evidence
- Compare benchmark records
- Control qualification decisions
- Retain governance and recovery histories

Potential buyer fit

Developer-tool companies / Software assurance teams / Enterprise architecture groups

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Component dossiers / Comparison records / Qualification decisions

Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/evidence-governed-software-assurance-platform/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 475,000	**EUR 1,200,000**

Current repository documentation

Current main baseline: 40.0.0.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Documentation checked: 17 October 2026. The main source is unchanged from the preceding directory review. Existing product qualification retains its source and execution date; tests were not rerun for this project.

Individual financial-reference review

Financial-reference review: 17 October 2026. Current main source and existing development heads reviewed. The priced scope and disclosed cost assumptions are unchanged; existing cost/asking references are retained. Market value remains NOT_ESTABLISHED. Original financial-reference date: 2026-10-12.

Commercial and delivery boundary

Amounts are seller model estimates, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-039-P: current documentation. TA-IP-039-C: financial-reference review, 17 October 2026. TA-IP-039-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Local checks are disclosed per project; see the exact source receipt and retained qualification scope.
