GoldenNet Signal Intelligence Platform

Review signal patterns and maintenance-model results before selecting a model for your intended use.

Product overview

A signal-intelligence product for condition review and maintenance research.

Documented functions

- Review time-series conditions
- Identify modelled anomalies
- Estimate remaining service life
- Monitor governed inference
- Retain release evidence

Potential buyer fit

Industrial AI vendors / Maintenance software developers / Equipment research teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Condition scores / Maintenance study reports / Model qualification records

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 425,000	**EUR 1,800,000**

Current repository documentation

Current main baseline: 0.10.0.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Documentation checked: 17 October 2026. The main source is unchanged from the preceding directory review. Existing product qualification retains its source and execution date; tests were not rerun for this project.

Individual financial-reference review

Financial-reference review: 17 October 2026. Current main source and existing development heads reviewed. The priced scope and disclosed cost assumptions are unchanged; existing cost/asking references are retained. Market value remains NOT_ESTABLISHED. Original financial-reference date: 2026-10-12.

Commercial and delivery boundary

Amounts are seller model estimates, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-054-P: current documentation. TA-IP-054-C: financial-reference review, 17 October 2026. TA-IP-054-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Local checks are disclosed per project; see the exact source receipt and retained qualification scope.
