# ORACULUM INFINITUM

Compare external software options for your business or engineering needs before choosing what to integrate.

## Product overview

A decision-support product for comparing software building blocks in a declared context.

## Documented functions

- Discover software candidates
- Retain reviewable evidence
- Apply declared admission criteria
- Compare candidate suitability
- Record selection rationale

## Potential buyer fit

Software architecture teams / Developer-tool vendors / Technology evaluation firms

Buyer profiles are positioning suggestions; they are not established customers or contracts.

## Documented output types

Candidate comparisons / Selection records / Evidence packages

## Profile and full editable brief

https://thearchitect-max.github.io/MyProjects/projects/oraculum-infinitum/

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

# Status and commercial reference

| SELLER ASKING REFERENCE | RECREATION ESTIMATE |
| --- | --- |
| **EUR 275,000** | **EUR 700,000** |

## Current repository documentation

Current main baseline: 1.0.0.

Available software for evaluation against your intended use. Deployment suitability is assessed separately.

Documentation checked: 17 October 2026. The main source is unchanged from the preceding directory review. Existing product qualification retains its source and execution date; tests were not rerun for this project.

## Individual financial-reference review

Financial-reference review: 17 October 2026. Current main source and existing development heads reviewed. The priced scope and disclosed cost assumptions are unchanged; existing cost/asking references are retained. Market value remains NOT_ESTABLISHED. Original financial-reference date: 2026-10-12.

## Commercial and delivery boundary

Amounts are seller model estimates, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

## Source basis

TA-IP-040-P: current documentation. TA-IP-040-C: financial-reference review, 17 October 2026. TA-IP-040-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Local checks are disclosed per project; see the exact source receipt and retained qualification scope.
