TrueLane Studio: Apex Architect

Compare vehicle configurations, examine measured results and review proposed improvements before further tuning work.

Product overview

A vehicle-independent engineering product for comparable tuning and qualification studies.

Documented functions

- Run vehicle configuration studies
- Compare calibration alternatives
- Review learning evidence
- Prepare portable engineering packages
- Replay regression studies

Potential buyer fit

Vehicle engineering teams / Automotive software vendors / Engineering consultancies

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Configuration comparisons / Calibration studies / Qualification packages

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 300,000	**EUR 1,200,000**

Current repository documentation

Current main baseline: 2.0.0.

The 2.0.0 release has retained external validation. Suitability for your vehicle requires its own evidence.

Documentation checked: 17 October 2026. The main source is unchanged from the preceding directory review. Existing product qualification retains its source and execution date; tests were not rerun for this project.

Individual financial-reference review

Financial-reference review: 17 October 2026. Current main source and existing development heads reviewed. The priced scope and disclosed cost assumptions are unchanged; existing cost/asking references are retained. Market value remains NOT_ESTABLISHED. Original financial-reference date: 2026-10-12.

Commercial and delivery boundary

Amounts are seller model estimates, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-080-P: current documentation. TA-IP-080-C: financial-reference review, 17 October 2026. TA-IP-080-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Local checks are disclosed per project; see the exact source receipt and retained qualification scope.
