Universal Property Intelligence Platform

Organise property, room and asset evidence, distinguish observed facts from assumptions, and prepare traceable replacement-cost summaries.

Product overview

A standard-library property evidence core with hierarchy, observed/declared/inferred records, deterministic low/base/high replacement estimates, condition/risk fields, graph and JSON/CSV exports.

Documented functions

- Record property, floor, room, asset and supporting evidence
- Keep observed, declared and inferred statements distinct
- Calculate supplied-rate replacement-cost ranges
- Export asset graphs, summaries and JSON/CSV packages

Potential buyer fit

Property documentation software teams / Insurance evidence specialists / Facilities and estate inventory teams

Buyer profiles are positioning suggestions; they are not established customers or contracts.

Documented output types

Property evidence registers / Replacement-cost summaries / Asset graphs and JSON/CSV exports

Profile and full editable brief

The full editable brief accompanies this factsheet and retains the detailed product and transaction boundaries.

Status and commercial reference

SELLER ASKING REFERENCE	RECREATION ESTIMATE
EUR 4,000	**EUR 12,500**

Current repository documentation

Current main baseline: 0.1.0.

A standard-library property evidence core with hierarchy, observed/declared/inferred records, deterministic low/base/high replacement estimates, condition/risk fields, graph and JSON/CSV exports. All 30 Git blobs verified; all 7 local Python tests passed on the exact v0.1.0 snapshot. No automatic extraction from photographs/video, certified property appraisal, verified insurance value, production integration or real-property accuracy is established. Reference Property 001 is synthetic demonstration evidence.

Next qualification step: Qualify realistic, permissioned property evidence, strengthen hash/ontology checks and agree rights and recipient acceptance.

Documentation checked: 17 October 2026. All 30 Git blobs verified; all 7 local Python tests passed on the exact v0.1.0 snapshot.

Individual financial-reference review

Financial-reference review: 17 October 2026. New present-source low-effort recreation reference EUR 12,500; seller asking choice EUR 4,000. Market value remains NOT_ESTABLISHED. Estimated hours are not logged time or expenditure. Original financial-reference date: 2026-10-17.

Commercial and delivery boundary

Amounts are seller model estimates, not expenditure, a contractor quotation or independent market/income value. AS IS acquisition requires a written agreement defining first-party rights, exact delivery and acceptance. Third-party rights retain their own terms. Future development, hosting, support, customer content and credentials are separately scoped or excluded.

Source basis

TA-IP-107-P: current documentation. TA-IP-107-C: financial-reference review, 17 October 2026. TA-IP-107-A: retained dated handover assessment. Shared WIPO, Knab and limited Upwork sources provide method/rate context, not asset appraisals. Local checks are disclosed per project; see the exact source receipt and retained qualification scope.
